Traudel Bongers

International Equestrian Professional | Hope Hall Farm, Reddick, Florida

International experience. Proven expertise. A lifelong commitment to the horse.

With an equestrian career spanning Germany, Canada, and the United States, Traudel brings extensive experience in high-performance sport, international horse management, coaching, and equestrian business operations.
After relocating to Reddick, Florida, in 2012, Traudel established herself within the international equestrian community and began training and presenting horses professionally. Her German equestrian background, where she trained her dressage horses with Willi Schultheis, led to an invitation from Equine Canada to work with two athletes preparing for the 2016 Paralympic Games in Rio de Janeiro. During the qualification process, she successfully completed the examination for the FEI High Performance 3*/Coach qualification.

HOPE HALL FARM

Today, Traudel is the founder and driving force behind Hope Hall Farm, the leading Florida-licensed CEM quarantine facility in Marion County, Florida. The farm serves an international clientele of horse owners, trainers, breeders, and equestrian professionals and has become a trusted destination for horses entering or moving through the United States. Her work combines practical horsemanship with an understanding of the needs of international clients and their horses.

SELECTED SERVICES

CEM Quarantine & International Horse Services —
Professional quarantine services for international horses entering the United States, supported by extensive experience with international horse owners and professionals.

Training & Development —
Individualized training and development for selected horses and riders, drawing on international high-performance experience.

Clinics & Coaching —
Focused instruction and clinics for riders seeking to develop their skills, partnership, and competitive performance.

Horse Sales & Representation —
Professional support for selected horses and clients, including presentation and preparation for the market.

Clients benefit from a rare combination of international equestrian experience, high-performance knowledge, hands-on horsemanship, and a deep understanding of the people and horses that make the sport exceptional.
